

## Social Science

1. Watch this video.

[Rivers of Spain](#)

2. Pág. 44. Listen and read.

### What is a watershed?

A watershed is an area of land where all the main rivers drain into the same sea or ocean. The three main watersheds in Spain are the Cantabrian, the Atlantic and the Mediterranean.

1 Look at the map. Which are the main rivers in each watershed? Copy and complete the table.

ATLANTIC	CANTABRIAN	MEDITERRANEAN
...	...	...

▶ *Think about it*

- 2 Which direction does water flow in each watershed? Talk to a partner.
- 3 Which watersheds do the Islas Canarias and Islas Baleares belong to? What are the rivers like here? Use the internet to investigate.

44 forty-four
